ASPIRATION

ZONES 22 (dust)

The BL 20 JC Z22 industrial vacuum cleaner is one of the most compact vacuum cleaners we can propose. Suction takes place thanks to a high-performance Brushless motor that guarantees silence and power. The BL 20 JC Z22 industrial vacuum cleaner has a large surface filter (35,000 cm²) certified in class M, with a filtration efficiency of up to 1 micron. On request, it is possible to install an absolute filter H14 to be able to vacuum even the finest dust.

On this vacuum cleaner, there is a semi-automatic JetClean® filter cleaning system that allows you to clean the filter without having to stop the suction. The material is collected in an AISI 304 stainless steel container, on wheels, with a capacity of 20 Lt.

Declaration of Conformity

ITEM REFERENCES

Designation:	Power:	Voltage:	Capacity:	Item No.:
